Dear Parents,

Your child has expressed an interest in assisting in the school canteen.

They will be required to help with the serving and basic preparation of recess and lunch at both sites, and as such, will be required to be sensible and responsible. They will also be involved in cleaning up at the end of their session. They will usually be required 10 minutes before recess and 10 minutes before lunch, and for the entire recess and lunch time. Being asked to help will also depend on class work commitments, application, behavior and attitude.

There may be other times throughout the year when your child is asked to help out, for example, during Special Days and when parent helpers are unavailable.

Those Year 6 students given permission by parents will be placed on a roster list of availability and with the consultation of the Year 6 teachers, will be allocated the responsibility of working within the canteen. There will always be a minimum of two students.

The Year 6 students helping in the canteen will be under the Health Food Act, this will be explained to them and the need to comply with such.

Thank you,

Sherryn McConnell
Stage 3 AP
